

1. Open WordPress backend, then click Website Builder → REAL Archive pages

2. Click the Create new style button

3. You can customize the style's name (1), how many posts will be displayed in a row (2), how many posts will be displayed in a page (3), the padding (4) and the background color (5)

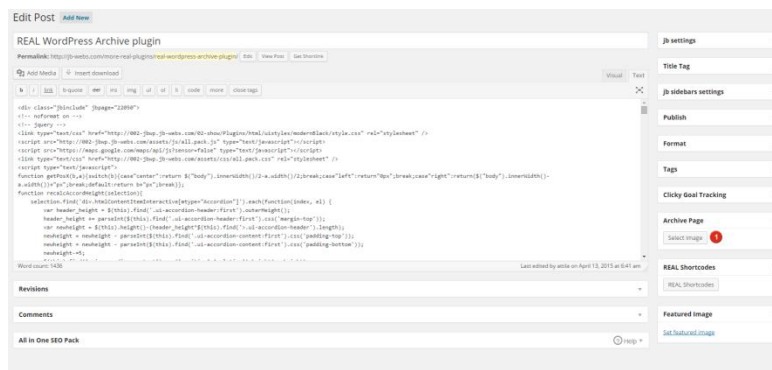

4. Now you have a style, next thing you should do is to link it to a category so you can see how it looks.

- a. At the bottom of the page, below the style list you will find the category list (1)
- b. If you have many categories you can use the Category filter to find the category you're looking for (2)
- c. Select the desired style from the drop-down list (3)
- d. Click the Save button to save the changes you made (4)

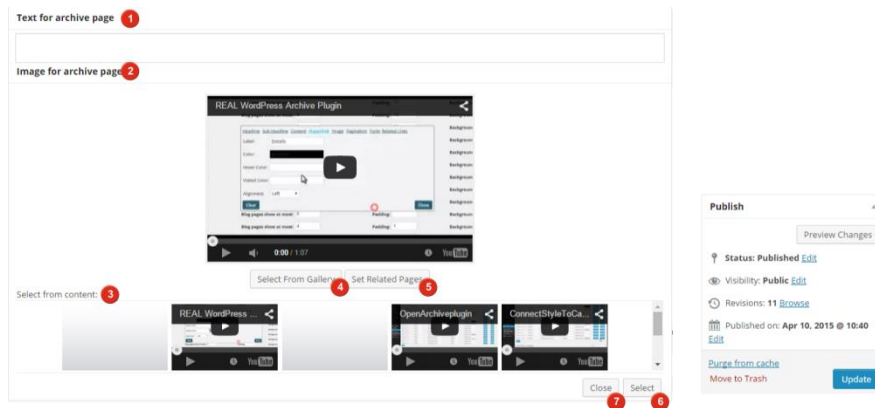

5. You can select a preview image (or even a YouTube video) and a short text to be displayed in the archive view:

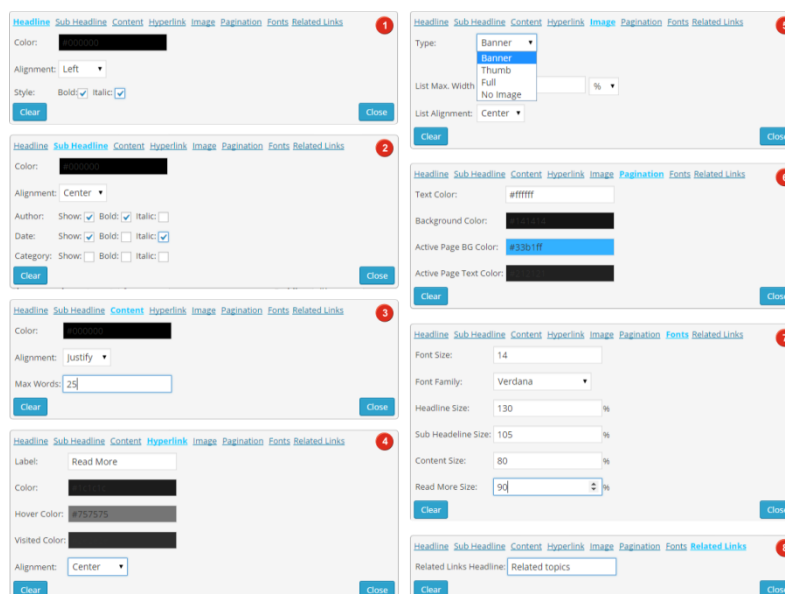

- a. When editing a post or page you will see an Archive page section (right side of the screen) with a button labeled Select image

- b. Click the button and enter a short text for the content (1)
- c. Select a preview image or video (2). The plugin will make you an offer based on the content of the post (3) but you can select an image from the media gallery or upload a new image (4).
- d. You can add links to related pages or categories by clicking the Set related pages button (5)
- e. Click the Select (6) button, than the Update/Publish button to save the changes or the Close (7) button to exit without saving

6. Now you have a style, you can start making it look great:
  - a. By clicking the Settings button you can customize the appearance of the preview thumbnail
  - b. There are 8 links, by clicking each of them you can manage color, alignment and style of the Headline (1), Sub-Headline (2), Content (3), Hyperlink (4), the size and position of the preview image (5), the style of the pagination (6), font sizes for all items (7) and the headline text for the Related links (8) (the settings are self-explanatory, best tactic is to experiment with them)
  - c. Click the Save button to save the changes you made
  - d. Check the results in the category view
  - e. Repeat Steps a-d if necessary

## Appendix

In case you need further help or inspiration we will share with you the settings for some of our styles

I. <http://jb-webs.com/downloads/category/download-marketplace/templates-download-marketplace/box-header-templates/>

Columns	2					
Blog pages shown	6
